Allowable Subject Matter

Claims 2-13,14-24 are allowed.

The following is an examiner's statement of reasons for allowance: The patentable distinction of claim 17 over the prior art is the limitation of displaying an icon representing a data store that is proximate a bar corresponding to the data store and displaying interconnections between the plurality of data stores in combination with the other limitations. The patentable distinction of claims 10 and 22 over the prior art is the limitation of selecting one of the bars and displaying details within the selected bar along with the other limitations of the claim. While the prior art teaches the display of computing layers in a stacked bar relationship, the prior art fails to anticipate or render the above cited limitations obvious.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
